24.8.2023 in Office

 8

On 13 and 14 September we will experience two days filled with engaging on-site activities, as our Office holds its first ever Campus Days. The Campus Days are an essential part of the New Ways of Working pilot, allowing us to reconnect face-to-face and engage in various learning, collaboration and socialising activities.

A detailed programme of activities is now available for both days, and all colleagues can explore the exciting activities available at each of the EPO's sites. Simply click on the name of your site and choose your favourite sessions: [The Hague](#), [Munich](#), [Vienna](#) and [Berlin](#). Some sessions require prior booking, so don't miss out and make sure to secure your spot!

What will Campus Days be like?

Campus Days offer something for everyone. Each day will kick off with a breakfast buffet and in The Hague, PschorrHöfe and Berlin with an external keynote speaker. At each site, you can then choose from a diverse selection of à-la-carte Campus Days sessions, where a variety of activities will be offered as experts from the Office share their knowledge and insights on nine themes – digitalisation, knowledge sharing, innovation, togetherness, discovery, support, wellbeing and management.

Bite-size presentations by more than 80 of our colleagues will help foster learning and meaningful discussions. This interactive atmosphere will also provide an ideal setting for building professional connections or simply enjoying getting to know your colleagues better over a coffee or a drink.

What do I need to do now?

To help you make the most out these sessions and social events, make sure to visit your site-specific programme and add your favourite activities to your calendar. Some of them require prior booking, so be quick to secure your spot. More information on Campus Days, including travel and workplace booking, is available on the [Campus Days intranet page](#). Please be aware that we intend to take pictures and/or videos throughout the event. For more information on how your personal data will be processed, please refer to the following [Data Protection Statement](#). If you have any questions or need further assistance, please don't hesitate to contact campusdays@epo.org.

It's time to reconnect, learn and celebrate together, so let's make Campus Days an unforgettable experience.
